COMPANY PROFILE

KIP L

Your Partner in People, Processes & Performance

ABOUT US

IT BARELY MATTERS WHAT YOU ARE; WHAT TRULY MATTERS IS HOW THE WORLD PERCEIVES YOU.

AND THAT PERCEPTION IS SHAPED BY YOU—BY THE VALUES YOU PROJECT AND THE EXCELLENCE YOU DELIVER.

Welcome to **Kainsara Infraprojects Private Limited (KIPL)** the flagship enterprise of the Kainsara Group and a trusted name in multi-discipline engineering services. Since our inception in 2009, we have been committed to delivering high-quality engineering support solutions to the Aluminum, Steel, Coal, and Power sectors.

With a strong foundation built on expertise, reliability, and innovation, we empower organizations to seamlessly manage both their core and non-core operations. Our comprehensive service portfolio spans:

- Mechanical Maintenance
- Operational Assistance
- Workforce Management
- Operating Asset Management
- Global Technology Solutions

Across industries and geographies, KIPL stands as a partner in progress—driving operational excellence, strengthening productivity, and enabling sustainable growth.

MANAGING DIRECTOR'S DESK

NOTHING IS MORE IMPORTANT THAN A HUMAN LIFE AND I AS THE MANAGING DIRECTOR OF THE COMPANY ENSURE IT BY IMPLEMENTATION OF BEST HSE PRACTICES.

On behalf of the Board of Directors and the Management, I would like to extend my sincere gratitude and appreciation for the support & continuous patronage extended by all stakeholders and thank you for your faith in the Company's growth potential.

Workmen are an integral part of this company. They work day in and day out to make sure that their company remains in good shape and that they themselves sustain and grow along with the company. Hence, it becomes my duty to appreciate these workmen and encourage them. Nothing is more important than a Human Life and I as the Managing Director of the company ensure it by implementing of best HSE practices. At the same time, we ensure our workman gives 100% of his efforts at the workplace. We are committed to our responsibility toward society through Corporate Social Responsibility (CSR). 'Healthy Workforce builds Healthy Work Environment in Company' - we implement the best practice in the areas of health & safety for all our employees.

Somanath Naik

CORE VALUES

ETHICS

We believe Ethics is the backbone of an establishment. We are uncompromising in our integrity, honesty, and fairness.

HEALTH & SAFETY

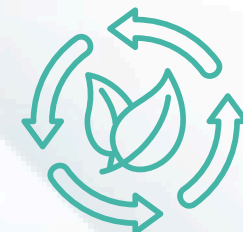

Health is wealth & Life is invaluable. We are relentless in keeping people safe from harm and providing a healthy work environment.

QUALITY

We are passionate about excellence and doing our work right the first time. Our reputation depends on our delivered value in the eyes of every customer and community.

SUSTAINABILITY

We improve the quality of life in communities where we work by respecting local cultures, engaging local people and protecting the environment.

OPERATION & MAINTAINENCE (O&M)

O&M encompasses the essential day-to-day activities required to ensure that every work setup, system, and piece of equipment performs its intended function reliably. A facility cannot operate at peak efficiency without consistent and strategic maintenance—and we understand that deeply.

For us, O&M goes far beyond technical upkeep. It integrates managerial, social, financial, and institutional dimensions, ensuring that every aspect of your facility's ecosystem works in harmony. With the right combination of skilled manpower and advanced machinery, we help you achieve optimum utilization of your assets and deliver performance that meets—and exceeds—your expectations.

Our O&M Support Includes:

- Operation & Maintenance
- Operational & Maintenance Assistance
- Start-up Activities
- Productivity Improvement
- Asset Optimization
- Process Control & Modification
- Preservation of Unutilized Facilities and Equipment

MECHANICAL FABRICATION

With a dedicated workshop located in Jharsuguda, we have the capacity to manufacture **approximately 200 MT of fabricated materials per month**. Our team brings extensive experience in the field of **Mechanical Fabrication**, supported by robust infrastructure and a strong commitment to quality and precision.

We specialize in the fabrication and manufacturing of:

- **Heavy Structural Components**
- **Technological Structures**
- **Conveyor Systems**
- **Piping Systems**
- **Boiler Components**
- **Pollution Control Equipment**
- **Dust Extraction (DE) Systems**
- **Bag Filters**
- **Ducting Systems**
- **Chimneys and Related Structures**

To support seamless execution, we are equipped with a full range of **construction equipment, machinery, plants, tools, tackles, and mobile cranes**, enabling us to undertake and deliver **any type of pre-fabrication job** with efficiency and reliability.

MECHANIZED CLEANING

An industrial environment, like any other workplace, demands a high level of cleanliness, discipline, and organization to function efficiently. Although every industry faces its own unique challenges, the need for **systematic industrial housekeeping** remains universal. With evolving technologies and increasingly stringent regulations on emissions and workplace safety, industrial housekeeping has become more advanced, more essential, and more integral to operational excellence.

Aligned with these evolving needs, we offer comprehensive solutions designed to enhance work practices, staff safety, asset optimization, productivity, and overall product quality.

Our Industrial Housekeeping Offerings Include:

- **Truck-Mounted Road Sweeping Machines**
- **Industrial Vacuum Cleaning Systems**
- **Industrial Dust Suppression Systems**
- **Solid Waste Management Equipment**
- **Customized Special Purpose Vehicles**
- **Self-Propelled Road Sweeping Machines**
- **Ride-On Sweeping Machines**
- **High-Pressure Jetting Machines & Dry-Fog Systems**

MATERIAL HANDLING

Material handling plays a critical role in ensuring operational efficiency across any organization. In today's competitive and globalized environment, controlling costs and reducing handling time have become essential for maintaining productivity and staying ahead.

We implement an efficient and streamlined material handling process through:

- **Thoughtfully designed facility layouts**
- **Simplified and optimized work processes**
- **Time-saving operational practices**
- **Cost-effective production flow management**

By leveraging our optimized resources and technical expertise, we undertake a comprehensive range of material handling activities, including:

- **Raw Material Handling**
- **Handling of Work-In-Progress (WIP)**
- **Finished Goods Management**
- **Rejects / Scrap Disposal Systems**
- **Packing and Storage Operations**

Our capabilities are strengthened by our in-house fleet of Hydras, Cranes, Trailers, and a wide range of material handling machinery and equipment.

MINERAL TRANSPORTATION / SHIFTING

We have built a strong and dependable reputation in the field of **mineral transportation**, particularly in handling high-volume commodities such as **coal, iron ore, and other bulk minerals** that are vital to core industries. Our logistics operations are supported by a disciplined fleet, trained manpower, and a robust operational framework that ensures **safe, timely, and cost-efficient movement** of materials across diverse routes and industrial environments.

In addition to long-haul transportation, we specialize in **internal shifting of minerals within plant premises**, including movement from stockyards to production units, conveyor-feeding points, storage bunkers, and process areas. Our team is experienced in managing short-cycle, high-frequency internal logistics that demand precision, coordination, and uninterrupted flow to support continuous production. With expertise in loading and unloading operations, weighbridge coordination, documentation compliance, and real-time monitoring, we maintain complete transparency and operational accuracy at every stage.

DESIGN & CONSULTANCY

Whatever your requirement, we have the expertise and resources to engineer and design your project with innovative, reliable, and cost-effective solutions. Our team comprises highly qualified engineers, industry veterans, and domain specialists who work closely with you to understand your expectations and translate them into practical, efficient conceptual designs. We help you analyze and understand the forces, processes, and operational dynamics that influence your product and services, ensuring that the final outcome performs exactly as intended.

Our Engineering Services Include:

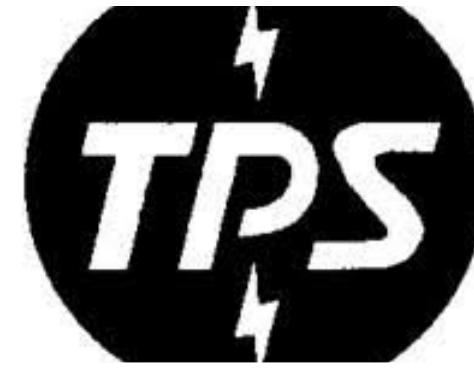

- **Feasibility Study and Assessment**
- **User Requirement Specifications (URS)**
- **Process Optimisation & Control in Carbon Plants of Aluminium Smelters to enhance operational efficiency**
- **Structural Design & Detailing**
- **Site-Based Customized Equipment for Industry-Specific Needs**
- **Training Programs for skill development and operational excellence**
